

## **Thesis Statement on Social Media**

Following are some thesis statements on social media:

1. Recently, social media is growing rapidly. Ironically, its use in remote areas has remained relatively low.
2. Social media has revolutionized communication but it is evenly killing it by limiting face-to-face communication.
3. Identically, social media has helped make work easier. However, at the same time it is promoting laziness and irresponsibility in society today.
4. The widespread use of social media and its influence has increased desperation, anxiety, and pressure among young youths.
5. Social media has made learning easier but its addiction can lead to bad grades among university students
